

## Custom control panel solutions for various application needs

Arjay Engineering designs and manufactures custom control panels offering a tailored solution for every unique application. The design of the control panel depends upon the complexity of the system it operates. Arjay's team of experienced technicians work with you to discuss your needs and come up with an appropriate design and components.

Customizable features include:

- Enclosure: indoor/outdoor use; water resistance
- Safety switches
- Alarm indicators
- Remote monitoring
- ISO 9001 third party certified
- PLC and/or solid-state logic
- Full AutoCad services and support
- Electrical Safety Certifications to UL and CSA Standards

Arjay Engineering has over 40 years of experience in designing and manufacturing control panels serving industries such as: oil & gas, food & beverage, pharmaceutical and manufacturing.
